

Conversion Chart

FROM DMC Embroidery Floss TO Kreinik Metallic Braid

This chart shows you the closest matches to DMC embroidery floss colors so that you can add Kreinik metallic threads to your projects—and make your designs stand out.

- Why?**
- Metallics make your stitchery more noticeable, more visual, and even look more valuable
 - Metallics add light, texture and fun to a design
 - Metallics are colorful! Some shades are variegated blends that add even more visual interest to a design
 - They're easy to use: just cut an 18-inch length from the spool and stitch (no need to separate/combine strands)
- How?**
- Use Kreinik **Fine #8 Braid** in place of two strands of embroidery floss on 14-count fabrics
 - Use Kreinik **Very Fine #4 Braid** in place of one strand of floss on 16- and 18-count fabrics
 - Visit the How-To section on www.kreinik.com for tips, downloadable color chart, and more
